PROFESSIONAL SUMMARY

Cyber Security student pursuing B.Tech with hands-on experience in Python development, web technologies, and security-focused projects. Skilled in building applications, participating in hackathons, and analyzing basic security vulnerabilities. Strong problem-solving mindset with experience in 20+ Python projects and 15+ web development projects. Passionate about ethical hacking, penetration testing, and secure software design.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, PHP, HTML, CSS

Web Technologies: Responsive Web Design, REST Basics, PHP-MySQL Applications

Cybersecurity Tools: Kali Linux, Nmap, Burp Suite, Wireshark, TryHackMe Labs

Development Tools: Git, GitHub, VS Code, Firebase (Basic)

Concepts: Network Security Basics, OSINT, Vulnerability Scanning, Secure Coding

Data & Productivity: Advanced Excel, Automation Tools, AI-assisted Development

PROJECTS

EduDesk Educational App (Flutter + Firebase): Developing a digital learning platform with dashboard, assignments, scheduling, and interactive tools.

Student Result & Fee Portal (PHP, MySQL): Web application for managing student results, fee records, and generating PDF receipts.

Face Recognition Attendance System (Python, OpenCV): Automated attendance system using facial recognition and trained datasets.

Cybersecurity Awareness Website: Informational site explaining cyber threats and digital defense techniques.

TruthLens Hackathon Project: Concept for detecting misinformation using AI-based content analysis.

HACKATHONS & TECH EVENTS

Participated in 5+ hackathons including Hack-N-Win.

Collaborated in teams to design rapid prototypes under time constraints.

Worked on cybersecurity and misinformation detection based solutions.

EXPERIENCE

Python Developer – Personal Projects (Aug 2024 – Present): Built GUI applications using Tkinter and automation scripts.

Web Developer – Freelance (Mar 2025 – Present): Developed responsive websites and implemented backend logic using PHP and MySQL.

Computer Operator & HR Support – Jhajjar (Oct 2024 – Present): Managed digital records, desktop support, and HR scheduling tasks.

Video Editor – Freelance (Aug 2016 – Present): Produced and edited video content using Adobe Premiere Pro.

EDUCATION

B.Tech in Cyber Security – CGC Jhanjeri, Mohali (2025 – Present)

12th – V.D. Sr. Sec. School, Bahu Jholri (2025)

10th – Sarvodaya Vidya Mandir, Khanpur Khurd (2023)

CERTIFICATIONS

Python Programming Certification

Full Stack Web Development Certification (Completed Twice)

Application Development Certification

UI/UX Design Certification

Advanced Excel Expert Certification

IT Expert Certification

Human Resource (HR) Management Certification

Team Leadership Certification

Team Management Certification

Artificial Intelligence with Python Certification

LANGUAGES

Hindi – Fluent

English – Intermediate
